dition, Spring Hill, \$1500.

Seymour Sargent and wife to David

Dickson, 58 acres, section 10, Gor-

ham township, \$4500.

## NEW ILLS COME WITH PROSPERITY

### Nervous Indigestion Alarmingly

### Prevalent Everywhere.

### DUE TO BREAK-NECK LIVING

### Tanlac Health Expert Describes Sym-

### ptoms of Rapidly Spreading Malady

### and Explains New Treatment Which

### Is Having Wonderful Success

### Wherever Introduced.

Nervous indigestion, due to the modern

break-neck speed of living, has be-

come alarmingly prevalent every-

where.

This statement by the Tanlac health

expert has created much comment.

He continued:

"I have never seen a time when

there seemed to be so many cases of

nervous indigestion among men and

women in all walks of life.

Here Are Symptoms.

"The symptoms are extreme irrita-

bility, nervousness, loss of appetite,

sleeplessness, and an almost uncon-

querable restlessness. Everything the

victim eats disagrees with him. There

is pain in the abdomen and palpi-

tation of the heart. Such cases are

usually accompanied by constipation.

"The prevalence of this

trouble to the fast pace at which both

men and women are forcing them-

selves to live. Everybody is enor-

mously in a wild scramble for wealth

during this high tide of prosperity.

"The will power can drive the hu-

man machine just so far, but there is a

limit. The health breaks down at

once and the victim is miserable

and unhappy—just half sick. Life

loses all its zest.

How Tanlac Helps.

"I have had hundreds of people call

on me describing just such symptoms.

They try Tanlac, and in a week or so

most of them tell me that it is helping

them to get on their feet again." Tan-

lac is a powerful digestive and nerve

tonic, and it relieves the nervous

conditions resulting from nervous in-

digestion and kindred complaints.

Everywhere it has been introduced it

has had wonderful success."

**\$635**  
5 Passenger Touring Car  
Roadster \$620  
Toledo

**31½**  
Horsepower

**Speedy and Easy Riding**

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

Come in and let us demonstrate. That's the best kind of proof.

## FARMERS TO MEET

The Fourth Annual Conference of Marketing and Farm Credits—To Be Held in Chicago, December Fourth to Ninth

We wish to call the attention of the readers of this paper to the fact that the Fourth Annual Conference of Marketing and Farm Credits will be held in Chicago, Illinois, December 4-9, at Hotel Sherman.

This conference for the past four years has been doing a great educational work along the line of better farming, better business methods in selling farm products, and improved methods in financing the farmer.

The marketing section will take up the question of a better system of marketing live stock, grain and other farm products and discuss the co-operative plan, the auction plan, etc. The farm credits section will discuss the workings of the Federal Farm Loan Act and how to best apply it to turn tenants into home owners.

With city people clamoring for Congress to place an embargo on wheat and other food stuffs, thus curtailing the farmers marketing, it is a high time some educational work was done to show the public that it is not the farmers fault that food stuffs are high. When we realize that there are seventy-five, 14-oz. 5 cent loaves of bread in a bushel of wheat for which, at the high price of wheat, the farmer is only getting about two cents

and the further fact that the average consumption of wheat in the U. S. is about 5 bushels per capita and that, at the present high price of wheat, about 15 hours work for it good mechanic, will buy all the wheat an average person will consume in a year, and you will have seventy-five pounds of feed left, worth almost a dollar. That in 1911 (no later statistics at hand) when 14 ounces of bread in Chicago was costing 5 cents, you could buy 64 ounces of bread in England, made from American wheat, for 10 and 12 cents. There are twenty three ten cent packages of rolled oats in a bushel of oats for which the farmer is receiving at the present

high price of oats, about 2 cents per package; a steer for which the farmer probably 30 paid \$80 costs the consumer, if bought over the butcher counter, \$160 and there is \$30 left for the killer in hide and other by-products; a suit of clothes costing \$50 of your clothing man contains fourteen pounds of grease wool for which the farmer was paid \$4.90

When the city man realizes that for every dollar he pays for food stuff only thirty-five cents goes back to the farmer he will not be so anxious to cut off the receipts of the hardest worked, poorest housed, poorest paid member of society; he will not ask for an embargo on food stuffs.

The trouble with the American people is not the high cost of living but the cost of living high. When a people spend \$1,500,000,000 for wines and liquors and \$435,000,000 for flour, four times as much for liquor as for flour, \$800,000,000 for tobacco and \$205,000,000 for potatoes, four times as much for tobacco as for potatoes, it shows that more money goes for luxuries than for necessities.

Come out and discuss these questions. The program will be so arranged that all members may be heard and do most of the work. All farmers and farm organizations are requested to be present. We would like to have all Ohio people that will attend report so we can meet in Toledo, Ohio, and go out as a solid delegation from Ohio. While the conference is at Hotel Sherman you can stop where it suits you and you can live in Chicago as cheap as anywhere in the U. S.; rooms \$2.00 a week and meals from 15 cents up. Be a booster and come out and help.

For further information address Chas. W. Holman, 903-4 Gaff Building, 230 South LaSalle street, Chicago, Illinois, Secretary or J. H. Harpster, Millersburg, Ohio, State Director.

## COUNT THE COST

Of the many nationalities the American most of all disdains to count the cost. There are, to be sure, New England villages and towns where old-fashioned thrift and prudence do count the cost, and in doing so often go to the other extreme. But the generally accepted type of American is inclined to be careless and wasteful when it comes to spending his money; and of rigid self-denial he is not a notable example.

Naturally this tendency, or possibly it has even become a trait, is carried into his business, and so of late we hear much about efficiency and "costs." Everywhere we possess has its cost price, but the trouble is we too often fail to take into consideration what this cost is. The large enterpriser, while the small fraction of a cent means success or failure, have already learned their lesson, but there still remain thousands upon thousands of business houses who refuse to seriously consider "costs." Perhaps the most effective illustration of this fact is that out of a total of some 22,000 business failures last year only 2,000 had any recognized knowledge of business or made use of a competent cost system. There will always be failures in spite of any and all cautionary methods, but the example that ten out of every eleven failures

were selling in ignorance of what it cost them to do business cannot be overlooked. A cost system in a small business does not mean a lot of red tape and extra clerks, but it is just as essential to success. Some mighty astounding surprises are uncovered when an analysis of even a successful business is made, and many unimagined-ed-of leaks are exposed.—H. H. Windsor, in the October Popular Mechanics Magazine.

## PRESERVE EGGS BY SEALING SHELLS HERMETICALLY

Both the process and effect of commercial sterilization of eggs—a comparatively new method of preventing deterioration, described in the October Popular Mechanics Magazine—should be as interesting to consumers as to dealers. In California the system has been employed for several years, but it is just being taken up in many of the larger cities in other sections of the country. It consists in part of immersing the eggs momentarily in a highly heated transparent odorless and tasteless oil of a high boiling point. It is asserted that, if freshly laid eggs are properly sterilized and sealed, they may be kept in cold storage for an indefinite period and upon removal will be found as sound and full as when treated.

## Have King George and the Kaiser for Breakfast

—and Hindenburg, Joffre and Haig; have all the other fighters, too. But all the world's best fighters are not in the European war—not by a long shot!

Some are in the country—fighting for better times on the farm—for better living conditions in town—for better roads from farm to town.

The Cleveland Plain Dealer will bring the daily doings of all these world's greatest fighters at home and abroad to your breakfast table every morning.

### What You Get in The Plain Dealer During the Year

The Cleveland Plain Dealer is as much your paper as it is Cleveland's. It prints the live news of your own locality, of Ohio, of the United States, of the world!

Such a paper, then, has a powerful educational influence in every home. It should come regularly to your home—and it will if you just say the word.

The Plain Dealer has its own special representatives in New York, in Washington, in Columbus—in fact, wherever we can gather news that will interest you, we do so—and spare no expense to get the best and most authentic reports.

Besides the actual news printed—there are daily features that you can hardly afford to be without.

Stock reports by Parr—who tells you when, where and how to sell farm produce to best advantage.

Cartoons by Donahey—the man who has swayed thousands by one stroke of his pen. Temple's "Sketches From Life"—drawings full of heart interest, that appeal to everyone.

And the woman's page—a big feature that women never fail to enjoy. And stirring editorials so masterfully written that they are copied far and near.

These, then, are but a few of the reasons why you will enjoy reading The Plain Dealer every morning. Remember, you get the same news at practically the same time that you would if you lived in Cleveland.

The Daily Plain Dealer costs but \$3.00 per year, delivered to your door. Make the investment today.

No mail orders accepted from localities where we maintain delivery agents.

## Our Biggest Asset

Ten thousand investors—farmers, bankers, lawyers, doctors, business men and trustees of estates—buy preferred stock regularly through The Geiger-Jones Company.

This large following of satisfied customers is our biggest asset—and the most powerful factor in the growth of our business.

Having dealt with us for years, they know by experience that we are pre-eminently successful in protecting the principal and income of our clients.

If you have funds to invest, or anticipate having any in the near future, you owe it to yourself to be well informed about the 7% Securities we recommend. A new edition of our Illustrated "Portfolio of Investment Securities" is just off the press, and we will be glad to send you a copy on request.

Wauseon, Ohio

## GRANDMOTHER KNEW

There was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered where it acted. You can now get the relief and help that mustard plasters give without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Musterole in with the finger tips gently. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, influenza, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

25c and 50c jars, hospital size, \$2.50.
